Vasundhara Akarshan

Creating a Beautiful Earth for All Beings - Optimizing Resources, Talent, Time & Potential

Vasundhara Akarshan represents the sacred art of aligning, amplifying, and attracting all of Earth's elements in perfect harmony. We integrate natural forces with human potential, creating a planetary ecosystem where every being can reach their highest potential (patrata) through natural alignment and conscious attraction.

Starter Kit for Human Ignition - So-sheel gandh addressing entanglement, confusion, conflict, greed, hate, worry, and jealousy variations in individuals.

Economy Concept

Natural Learning: Learning in ecology is natural without communication, training, or special education. All species contribute to the ecosystem perfectly, living without rules or laws with total freedom and diversity.

"No doctor, no judge, no constitution - all happens naturally by connecting to nature and learning automatically."

Syncing Concept: Inner mind and outer body should sync with the outer environment. The concept appeals to every country, state, org, and individual through natural attraction and relevance.

Ideation Way

TRIZ restructuring and expansion (I-TRIZ):
More power **plus** simplicity

Classical TRIZ:
Complexity **and** power

Trial and Error:
Simplicity, **no** power
